FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements that are subject to risks and uncertainties. All statements other than statements of historical or current fact included in this report are forward-looking statements. Forward-looking statements refer to our current expectations and projections relating to our financial condition, results of operations, plans, objectives, strategies, future performance, and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as “anticipate,” “estimate,” “expect,” “project,” “plan,” “intend,” “believe,” “may,” “might,” “will,” “should,” “can have,” and “likely” and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. For example, all statements we make relating to our estimated and projected earnings, revenues, costs, expenditures, cash flows, growth rates, and financial results, our plans and objectives for future operations, growth, initiatives, or strategies, or the expected outcome or impact of pending or threatened litigation are forward-looking statements. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- possible adverse changes in general economic conditions and their impact on consumer confidence and consumer spending;
- possible inability to predict and respond in a timely manner to changes in consumer demand;
- possible loss of key management or design associates or inability to attract and retain the talent required for our business;
- possible inability to maintain and enhance our brand;
- possible inability to successfully implement our growth strategies or manage our growing business;
- possible inability to successfully open and operate new stores as planned;
- possible inability to sustain levels of comparable-store sales; and
- possible adverse changes in the cost of raw materials and labor used to manufacture our products.

We derive many of our forward-looking statements from our operating plans and forecasts, which are based upon detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results.

For a discussion of these risks and other risks and uncertainties that could cause actual results to differ materially from those contained in our forward-looking statements, please refer to “Risk Factors” in Item 1A of our Annual Report on Form 10-K for the fiscal year ended February 2, 2013.

We caution you that the risks and uncertainties identified by us may not be all of the factors that are important to you. Furthermore, the forward-looking statements included in this report are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events, or otherwise, except as required by law.

1. Description of the Company and Basis of Presentation

The terms “Company” and “Vera Bradley” refer to Vera Bradley, Inc. and its subsidiaries, except where context requires or where otherwise indicated.

Vera Bradley is a leading designer, producer, marketer, and retailer of stylish, highly functional accessories primarily for women. The Company’s products include a wide offering of handbags, accessories, and travel and leisure items. The Company generates net revenues by selling products through two reportable segments: Direct and Indirect. The Direct business consists of sales of Vera Bradley products through the Company’s full-price and outlet stores in the United States, department store locations in Japan, its websites, verabradley.com and verabradley.co.jp, and its annual outlet sale in Fort Wayne, Indiana. As of August 3, 2013, the Company operated 80 full-price stores and 14 outlet stores. The Indirect business consists of sales of Vera Bradley products to approximately 3,400 specialty retailers, substantially all of which are located in the United States, as well as select department stores, national accounts, and third party e-commerce sites.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) have been omitted. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the fiscal year ended February 2, 2013, filed with the SEC.

The interim financial statements reflect all adjustments that are, in the opinion of management, necessary to present fairly the results for the interim periods presented. All such adjustments are of a normal, recurring nature. The results of operations for the twenty-six weeks ended August 3, 2013, are not necessarily indicative of the results to be expected for the full fiscal year.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. The Company has eliminated intercompany balances and transactions in consolidation.

Fiscal Periods

The Company’s fiscal year ends on the Saturday closest to January 31. References to the fiscal quarters ended August 3, 2013, and July 28, 2012, refer to the thirteen-week periods ended on those dates.

Recently Issued Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income* (“ASU 2013-02”). This guidance adds new disclosure requirements for items reclassified out of accumulated other comprehensive income. The additional disclosures include: (1) changes in accumulated other comprehensive income balances by component and (2) significant items reclassified out of accumulated other comprehensive income. The changes in accumulated other comprehensive income balance by component will be disaggregated to separately present reclassification adjustments and current-period other comprehensive income. Significant items reclassified out of accumulated other comprehensive income by component are required to be presented either on the face of the statement of income or as separate disclosure in the notes to the financial statements. These additional disclosures may be presented before-tax or net-of tax as long as the income tax benefit or expense attributed to each component of other comprehensive income and reclassification adjustments is presented in the financial statement or in the notes to the financial statements. The guidance is effective for interim and annual periods beginning after December 15, 2012 and should be applied prospectively. The adoption of this standard did not have an impact on the Company’s consolidated financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will be effective for fiscal periods beginning after December 15, 2012. The adoption of this standard did not have an impact on the Company’s consolidated financial statements.

2. Earnings Per Share

Earnings per share is computed under the provisions of ASC 260, Earnings Per Share. Basic earnings per share is computed based on the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed based on the weighted-average number of common shares outstanding, plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares represent outstanding restricted stock. The components of basic and diluted earnings per share were as follows (in thousands, except per share data):

	<u>Thirteen Weeks Ended</u>		<u>Twenty-Six Weeks Ended</u>	
	<u>August 3, 2013</u>	<u>July 28, 2012</u>	<u>August 3, 2013</u>	<u>July 28, 2012</u>
<i>Numerator:</i>				
Net income	\$14,951	\$13,373	\$ 24,140	\$ 25,999
<i>Denominator:</i>				
Weighted-average number of common shares (basic)	40,603	40,532	40,592	40,524
Dilutive effect of stock-based awards	<u>20</u>	<u>36</u>	<u>32</u>	<u>33</u>
Weighted-average number of common shares (diluted)	<u>40,623</u>	<u>40,568</u>	<u>40,624</u>	<u>40,557</u>
<i>Earnings per share:</i>				
Basic	<u>\$ 0.37</u>	<u>\$ 0.33</u>	<u>\$ 0.59</u>	<u>\$ 0.64</u>
Diluted	<u>\$ 0.37</u>	<u>\$ 0.33</u>	<u>\$ 0.59</u>	<u>\$ 0.64</u>

As of August 3, 2013 and July 28, 2012, there was an immaterial number of additional shares issuable upon the vesting of restricted stock units that were excluded from the diluted share calculations because they were anti-dilutive.

3. Fair Value of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly.
- Level 3 – Unobservable inputs based on the Company's own assumptions.

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement.

The carrying amounts reflected on the Consolidated Balance Sheets for cash and cash equivalents, receivables, other current assets, and payables as of August 3, 2013, and July 28, 2012, approximated their fair values.

The carrying amount for the amended and restated credit agreement ("credit agreement") approximated its fair value at July 28, 2012 as the interest rates of these borrowings fluctuate with the market. The credit agreement falls within Level 2 of the fair value hierarchy.

4. Inventories

The components of inventories were as follows (in thousands):

	August 3, 2013	February 2, 2013
Raw materials	\$ 19,441	\$ 19,490
Work in process	908	836
Finished goods	122,515	111,236
Total inventories	<u>\$ 142,864</u>	<u>\$ 131,562</u>

5. Debt

Long-term debt consisted of the following (in thousands):

	August 3, 2013	February 2, 2013
Financial-institution debt	\$ —	\$ 15,000
Other borrowings	—	95
	—	15,095
Less: Current maturities	—	58
	<u>\$ —</u>	<u>\$ 15,037</u>

During the quarter ended August 3, 2013, the interest rate on outstanding borrowings under the Company's \$125.0 million credit agreement was 1.30%, and the Company had borrowing availability of \$125.0 million under the agreement.

6. Income Taxes

The provision for income taxes for interim periods is based on an estimate of the annual effective tax rate adjusted to reflect the impact of discrete items. Significant management judgment is required in projecting ordinary income to estimate the Company's annual effective tax rate.

The effective tax rate for the thirteen weeks ended August 3, 2013, was 37.7%, compared to 38.2% for the thirteen weeks ended July 28, 2012.

The effective tax rate for the twenty-six weeks ended August 3, 2013, was 38.2%, compared to 38.5% for the twenty-six weeks ended July 28, 2012.

7. Stock-Based Compensation

The Company accounts for stock-based compensation under the fair-value recognition provisions of ASC 718, *Stock Compensation*. Under these provisions, for its awards of restricted stock and restricted stock units, the Company recognizes share-based compensation expense in an amount equal to the fair market value of the underlying stock on the grant date of the respective award.

The Company reserved 6,076,001 shares of common stock for issuance or transfer under the 2010 Equity and Incentive Plan, which allows for grants of restricted stock units as well as other equity awards.

Awards of Restricted Stock Units

During the thirteen weeks ended August 3, 2013, the Company did not grant any time-based restricted stock units under the 2010 Equity and Incentive Plan compared to a total of 3,158 time-based restricted stock units with an aggregate fair value of \$0.1 million granted in the same period of the prior year.

Vera Bradley, Inc.
Notes to the Consolidated Financial Statements
(unaudited)

During the twenty-six weeks ended August 3, 2013, the Company granted a total of 244,814 time-based and performance-based restricted stock units with an aggregate fair value of \$5.8 million to certain employees and non-employee directors under the 2010 Equity and Incentive Plan compared to a total of 177,512 time-based and performance-based restricted stock units with an aggregate fair value of \$5.3 million granted in the same period of the prior year. The Company determined the fair value of the awards based on the closing price of the Company's common stock on the grant date.

The time-based restricted stock units vest and settle in shares of the Company's common stock, on a one-for-one basis, in equal installments on each of the first three anniversaries of the grant date. The Company is recognizing the expense relating to these units, net of estimated forfeitures, on a straight-line basis over three years. Beginning in fiscal 2014, all restricted stock awards issued to non-employee Directors vest after a one-year period from grant date. The Company is recognizing the expense relating to these units, net of estimated forfeitures, on a straight-line basis over one year.

Performance-based restricted stock units vest upon the completion of a three-year period of time (cliff vesting), subject to the employee's continuing employment throughout the three-year performance period and the Company's achievement of annual net income targets during the three-year performance period. The Company is recognizing the expense relating to these units, net of estimated forfeitures and based on the probable outcome of achievement of the net income targets, on a straight-line basis over three years.

The following table sets forth a summary of restricted stock unit activity for the period ended August 3, 2013 (units in thousands):

	<u>Time-based Restricted Stock Units</u>		<u>Performance-based Restricted Stock Units</u>	
	<u>Number of Units</u>	<u>Weighted- Average Grant Date Fair Value (per unit)</u>	<u>Number of Units</u>	<u>Weighted- Average Grant Date Fair Value (per unit)</u>
Nonvested units outstanding at February 2, 2013	150	\$ 34.71	76	\$ 29.62
Granted	139	23.72	105	23.63
Vested	(58)	35.97	—	—
Forfeited	(4)	28.25	(3)	26.25
Nonvested units outstanding at August 3, 2013	<u>227</u>	<u>\$ 27.76</u>	<u>178</u>	<u>\$ 26.13</u>

As of August 3, 2013, there was \$6.6 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested restricted stock units. That cost is expected to be recognized over a weighted average period of 2.0 years.

8. Commitments and Contingencies

The Company is subject to various claims and contingencies arising in the normal course of business, including those relating to product liability, legal, employee benefit, environmental, and other matters. Management believes that it is not reasonably possible that any of these claims will have a material adverse effect on the Company's financial condition, results of operations, or cash flows.

9. Segment Reporting

The Company has two operating segments, which are also its reportable segments: Direct and Indirect. These operating segments are components of the Company for which separate financial information is available and for which operating results are evaluated on a regular basis by the chief operating decision maker in deciding how to allocate resources and in assessing the performance of the segments.

The Direct segment includes the Company's full-price and outlet stores, department store locations in Japan, the Company's websites, verabradley.com and verabradley.co.jp, and the annual outlet sale. Revenues generated through this segment are driven through the sale of Company-branded products from Vera Bradley to end consumers. The Indirect segment represents revenues generated through the distribution of Company-branded products to approximately 3,400 specialty retailers, substantially all of

Vera Bradley, Inc.
Notes to the Consolidated Financial Statements
(unaudited)

which are located in the United States, as well as select department stores, national accounts and third party e-commerce sites. Corporate costs represent the Company's administrative expenses, which include, but are not limited to: human resources, legal, finance, information technology, design, merchandising, and various other corporate-level-activity-related expenses. All intercompany-related activities are eliminated in consolidation and are excluded from the segment reporting.

Company management evaluates segment operating results based on several indicators. The primary or key performance indicators for each segment are net revenues and operating income. Net revenues and operating income information for the Company's reportable segments consisted of the following (in thousands):

	<u>Thirteen Weeks Ended</u>		<u>Twenty-Six Weeks Ended</u>

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion summarizes the significant factors affecting the consolidated operating results, financial condition, liquidity, and cash flows of our Company as of and for the thirteen and twenty-six weeks ended August 3, 2013, and July 28, 2012. The following discussion should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended February 2, 2013, and our unaudited consolidated financial statements and the related notes included in Item 1 of this Quarterly Report.

Executive Summary

Below is a summary of our strategic progress and financial highlights:

Strategic Progress

- We opened eight new full-price stores and one outlet store during the second quarter in both current and new markets.
- We announced the expansion of our current design and distribution centers, both of which are located just outside of Fort Wayne, Indiana, to create a company campus for the majority of our office personnel increasing efficiency and ease of collaboration.
- We grew traffic by 20% at VeraBradley.com.

Quarterly Financial Summary

- Net revenues increased 1.9% to \$125.4 million.

How We Assess the Performance of Our Business

In assessing the performance of our business, we consider a variety of performance and financial measures.

Net Revenues

Net revenues reflect revenues from the sale of our merchandise and from distribution and shipping and handling fees, less returns and discounts. Revenues for the Direct segment reflect sales through our full-price and outlet stores, department store locations in Japan, our websites, verabradley.com and verabradley.co.jp, and our annual outlet sale in Fort Wayne, Indiana. Revenues for the Indirect segment reflect sales to specialty retail partners, department stores, national accounts and third party e-commerce sites.

Comparable-Store Sales

Comparable-store sales are calculated based upon our stores that have been open at least 12 full fiscal months as of the end of the reporting period. Remodeled stores are included in comparable-store sales unless the store was closed for a portion of the current or comparable prior period or the remodel resulted in a significant change in square footage. Some of our competitors and other retailers calculate comparable or “same store” sales differently than we do. As a result, data in this report regarding our comparable-store sales may not be comparable to similar data made available by other companies. Non-comparable store sales include sales from stores not included in comparable-store sales. Comparable store sales do not include e-commerce sales.

Measuring the change in year-over-year comparable-store sales allows us to evaluate how our store base is performing. Various factors affect our comparable-store sales, including:

- Overall economic trends;
- Consumer preferences and fashion trends;
- Competition;
- The timing of our releases of new patterns and collections;
- Changes in our product mix;
- Pricing;
- The level of customer service that we provide in stores;
- Our ability to source and distribute products efficiently;
- The number of stores we open and close in any period; and
- The timing and success of promotional and advertising efforts.

Gross Profit

Gross profit is equal to our net revenues less our cost of sales. Cost of sales includes the direct cost of purchased and manufactured merchandise, distribution center costs, operations overhead, duty, and all inbound freight costs incurred. The components of our reported cost of sales may not be comparable to those of other retail and wholesale companies.

Gross profit can be impacted by changes in volume, fluctuations in sales price, operational efficiencies, such as leveraging of fixed costs, promotional activities, such as free shipping, and commodity prices such as cotton, and labor in Asia.

Selling, General, and Administrative Expenses (SG&A)

SG&A expenses include selling; advertising, marketing, and product development; and administrative. Selling expenses include Direct business expenses such as store expenses, employee compensation, and store occupancy and supply costs, as well as Indirect business expenses consisting primarily of employee compensation and other expenses associated with sales to Indirect retailers. Advertising, marketing, and product development expenses include employee compensation, media costs, creative production expenses, marketing agency fees, new product design costs, public relations expenses, and market research expenses. A portion of our advertising expenses may be reimbursed by Indirect retailers, and such amount is classified as other income. Administrative expenses include employee compensation for corporate functions, corporate headquarters occupancy costs, consulting and software expenses, and charitable donations.

Other Income

We support many of our Indirect retailers' marketing efforts by distributing certain catalogs and promotional mailers to current and prospective customers. Our Indirect retailers reimburse us for a portion of the cost to produce these materials. Reimbursement received is recorded as other income. The related cost to design, produce, and distribute the catalogs and mailers is recorded as SG&A expense. Other income also includes proceeds from the sales of tickets to our annual outlet sale and the gain on the sale of certain life insurance policies.

Operating Income

Operating income equals gross profit less SG&A expenses plus other income. Operating income excludes interest income, interest expense, and income taxes.

- (2) Comparable-store sales are the net revenues of our stores that have been open at least 12 full fiscal months as of the end of the period. Increase or decrease is reported as a percentage of the comparable-store sales for the same period in the prior fiscal year. Remodeled stores are included in comparable-store sales unless the store was closed for a portion of the current or comparable prior period or the remodel resulted in a significant change in square footage. Calculation excludes e-commerce sales.
- (3) Dollars not in thousands. Average net revenues per gross square foot are calculated by dividing total net revenues for our stores that have been open at least 12 full fiscal months as of the end of the period by total gross square footage for those stores. Remodeled stores are included in average net revenues per gross square foot unless the store was closed for a portion of the period.

Thirteen Weeks Ended August 3, 2013, Compared to Thirteen Weeks Ended July 28, 2012

Net Revenues

For the thirteen weeks ended August 3, 2013, net revenues increased \$2.3 million, or 1.9%, to \$125.4 million, from \$123.0 million in the comparable prior-year period.

Direct. For the thirteen weeks ended August 3, 2013, net revenues in the Direct segment increased \$9.3 million, or 14.2%, to \$75.0 million, from \$65.7 million in the comparable prior-year period. This growth resulted primarily from a \$9.8 million increase in revenues related to additional full-price and outlet stores, and a \$0.4 million increase in e-commerce revenues due primarily to increased traffic. This growth was partially offset by a comparable-store sales decrease of \$1.4 million, or 3.7%, primarily driven by an underperforming product offering and a decrease in store traffic. The aggregate number of our full-price and outlet stores grew from 70 at July 28, 2012, to 94 at August 3, 2013.

Indirect. For the thirteen weeks ended August 3, 2013, net revenues in the Indirect segment decreased \$6.9 million, or 12.2%, to \$50.4 million, from \$57.3 million in the comparable prior-year period, driven by continued decreases in orders from specialty retailers across all geographies. This reduction in sales from the specialty retailers was partially offset by an increase in revenue from the department store channel.

[Table of Contents](#)

Gross Profit

For the thirteen weeks ended August 3, 2013, gross profit increased \$3.2 million, or 4.6%, to \$71.8 million, from \$68.6 million in the comparable prior-year period. As a percentage of net revenues, gross profit increased to 57.2% for the thirteen weeks ended August 3, 2013, from 55.8% in the comparable prior-year period. The increase as a percentage of net revenues was primarily due to fewer incentives offered to our specialty retailers compared to the prior year.

Selling, General and Administrative Expenses

For the thirteen weeks ended August 3, 2013, SG&A expenses increased \$0.5 million, or 1.1%, to \$48.3 million, from \$47.8 million in the comparable prior-year period. As a percentage of net revenues, SG&A expenses decreased to 38.6% for the thirteen weeks ended August 3, 2013, from 38.9% in the comparable prior-year period. The decrease as a percentage of net revenues was primarily due to cost management measures, as well as reductions in variable compensation expense associated with company performance, partially offset by the deleveraging of store operating expenses.

Other Income

For the thirteen weeks ended August 3, 2013, other income decreased \$0.4 million, or 38.2%, to \$0.6 million, from \$1.0 million in the comparable prior-year period. The decrease in other income was in line with a decrease in associated advertising costs related to mailers for our specialty retailers.

Operating Income

For the thirteen weeks ended August 3, 2013, operating income increased \$2.3 million, or 10.4%, to \$24.1 million, from \$21.8 million in the comparable prior-year period. As a percentage of net revenues, operating income was 19.2% and 17.7% for the thirteen weeks ended August 3, 2013, and July 28, 2012, respectively.

Direct. For the thirteen weeks ended August 3, 2013, operating income in the Direct segment increased \$2.9 million, or 17.6%. As a percentage of Direct segment net revenues, operating income in the Direct segment was 25.5% and 24.7% for the thirteen weeks ended August 3, 2013, and July 28, 2012, respectively. This increase as a percentage of net revenues in the Direct segment was due primarily to improved gross margin.

Indirect. For the thirteen weeks ended August 3, 2013, operating income in the Indirect segment decreased \$1.9 million, or 7.9%. As a percentage of Indirect segment net revenues, operating income in the Indirect segment was 43.3% and 41.3% for the thirteen weeks ended August 3, 2013, and July 28, 2012, respectively. This increase as a percentage of net revenues in the Indirect segment resulted primarily from a decrease in variable compensation expense, the impact of additional department store doors and cost management measures.

Corporate Unallocated. For the thirteen weeks ended August 3, 2013, unallocated expenses decreased \$1.3 million, or 7.0%, primarily due to cost management measures, as well as reductions in variable compensation expense associated with company performance, partially offset by an increase in corporate personnel costs.

Income Tax Expense

The effective tax rate for the thirteen weeks ended August 3, 2013, was 37.7%, compared to 38.2% for the thirteen weeks ended July 28, 2012.

Twenty-Six Weeks Ended August 3, 2013, Compared to Twenty-Six Weeks Ended July 28, 2012

Net Revenues

For the twenty-six weeks ended August 3, 2013, net revenues increased \$8.2 million, or 3.4%, to \$248.4 million, from \$240.2 million in the comparable prior-year period.

Direct. For the twenty-six weeks ended August 3, 2012, net revenues in the Direct segment increased \$23.8 million, or 19.0%, to \$148.7 million, from \$124.9 million in the comparable prior-year period. This growth resulted primarily from a \$17.9 million increase in revenues related to additional full-price and outlet stores, and a \$5.5 million increase in e-commerce revenues due primarily to increased traffic. This growth was partially offset by a comparable-store sales decrease of \$1.2 million, or 1.8%, primarily driven by a decrease in store traffic. The aggregate number of our full-price and outlet stores grew from 70 at July 28, 2012 to 94 at August 3, 2013.

Indirect. For the twenty-six weeks ended August 3, 2013, net revenues in the Indirect segment decreased \$15.6 million, or 13.5%, to \$99.7 million, from \$115.3 million in the comparable prior-year period, driven by continued decreases in orders from specialty retailers across all geographies and all sizes of retailers. This reduction in sales from the specialty retailers was partially offset by an increase in revenue from the department store channel.

Gross Profit

For the twenty-six weeks ended August 3, 2013, gross profit increased \$6.3 million, or 4.7%, to \$140.2 million, from \$133.9 million in the comparable prior-year period. As a percentage of net revenues, gross profit increased to 56.5% for the twenty-six weeks ended July 28, 2012, from 55.7% in the comparable prior-year period. The increase as a percentage of net revenues was primarily due to fewer incentives offered to our specialty retailers compared to the prior year.

Selling, General, and Administrative Expenses

For the twenty-six weeks ended August 3, 2013, SG&A expenses increased \$8.5 million, or 9.0%, to \$103.6 million, from \$95.0 million in the comparable prior-year period. As a percentage of net revenues, SG&A expenses were 41.7% and 39.6% for the fiscal quarters ended August 3, 2013, and July 28, 2012, respectively. The increase in SG&A expenses as a percentage of net revenues was primarily due to fixed expenses being spread over lower revenues in the Indirect segment, the deleveraging of store operating expenses, and the impact of employee-related expenses from headcount added in the second half of fiscal 2013.

Other Income

For the twenty-six weeks ended August 3, 2013, other income decreased \$1.1 million, or 30.6%, to \$2.6 million, from \$3.7 million in the comparable prior-year period. The decrease in other income was in line with a decrease in associated advertising costs related to mailers for our specialty retailers.

Operating Income

For the twenty-six weeks ended August 3, 2013, operating income decreased \$3.4 million, or 7.9%, to \$39.3 million, from \$42.6 million in the comparable prior-year period. As a percentage of net revenues, operating income was 15.8% and 17.7% for the twenty-six weeks ended August 3, 2013, and July 28, 2012, respectively.

Direct. For the twenty-six weeks ended August 3, 2013, operating income in the Direct segment increased \$4.5 million, or 14.1%. As a percentage of Direct segment net revenues, operating income in the Direct segment was 24.3% and 25.3% for the twenty-six weeks ended August 3, 2013, and July 28, 2012, respectively. This decrease as a percentage of net revenues in the Direct segment was primarily due to the gross margin impact of promotional activity in our stores, increased store payroll costs spread across lower revenue in our comparable full-price stores, and build-out costs related to four additional stores opened this year, compared to the prior year.

Indirect. For the twenty-six weeks ended August 3, 2013, operating income in the Indirect segment decreased \$6.6 million, or 14.2%. As a percentage of Indirect segment net revenues, operating income in the Indirect segment was consistent at 39.7% and 40.0% for the twenty-six weeks ended August 3, 2013, and July 28, 2012, respectively, reflecting lower variable compensation on the lower revenues as well as certain cost management measures.

[Table of Contents](#)

Corporate Unallocated. For the twenty-six weeks ended August 3, 2013, unallocated expenses increased \$1.2 million, or 3.6%, primarily as a result of higher corporate personnel costs, which were partially offset by cost management measures, as well as reductions in variable compensation expense associated with company performance.

Income Tax Expense

The effective tax rate for the twenty-six weeks ended August 3, 2013, was 38.2%, compared to 38.5% for the twenty-six weeks ended July 28, 2012.

Liquidity and Capital Resources

General

Our primary source of liquidity is cash flow from operations. We also have access to additional liquidity, if needed, through borrowings under our \$125.0 million amended and restated credit agreement. Historically, our primary cash needs have been for merchandise inventories, payroll, store rent, capital expenditures associated with operational equipment, buildings, information technology, opening new stores, and debt repayments. The most significant components of our working capital are cash and cash equivalents, merchandise inventories, accounts receivable, accounts payable, and other current liabilities. We do not believe that the expansion of our Direct business will materially increase borrowings under our amended and restated credit agreement, in the near term.

We believe that cash flows from operating activities and the availability of borrowings under our amended and restated credit agreement or other financing arrangements will be sufficient to meet working capital requirements, anticipated capital expenditures, and debt payments for the foreseeable future.

Cash Flow Analysis

A summary of operating, investing, and financing activities is shown in the following table (in thousands):

	Twenty-Six Weeks Ended	
	August 3, 2013 (unaudited)	July 28, 2012 (unaudited)
Net cash provided by operating activities	\$ 27,004	\$ 25,461
Net cash used in investing activities	(11,976)	(22,704)
Net cash used in financing activities	(15,261)	(62)

Net Cash Provided by Operating Activities

Net cash provided by operating activities consists primarily of net income adjusted for non-cash items, including depreciation, amortization, deferred taxes, and stock-based compensation, the effect of changes in assets and liabilities, and tenant-improvement allowances received from landlords under our store leases.

Net cash provided by operating activities for the twenty-six weeks ended August 3, 2013 was \$27.0 million, compared to \$25.5 million for the twenty-six weeks ended July 28, 2012.

Net Cash Used in Investing Activities

Investing activities consist primarily of capital expenditures for growth related to new store openings, buildings, operational equipment, and information technology investments.

Net cash used in investing activities was \$12.0 million and \$22.7 million for the twenty-six weeks ended August 3, 2013, and July 28, 2012, respectively. The \$10.7 million decrease in capital expenditures was due primarily to the expansion of the distribution facility in fiscal 2013, partially offset by an increased investment in new stores, including the opening of 18 stores during the twenty-six weeks ended August 3, 2013, compared to 14 stores during the twenty-six weeks ended July 28, 2012.

[Table of Contents](#)

Capital expenditures for fiscal year 2014 are expected to be approximately \$30.0 million, which includes approximately \$10.0 million related to the design center and distribution center corporate office expansions.

Net Cash Used in Financing Activities

Financing activities consist primarily of borrowings and repayments under our credit agreement.

Net cash used in financing activities was \$15.3 million and less than \$0.1 million for the twenty-six weeks ended August 3, 2013 and July 28, 2012, respectively.

Credit Agreement

On October 4, 2010, Vera Bradley Designs, Inc. entered into an agreement to amend and restate our credit agreement with JPMorgan Chase Bank, as administrative agent, and certain other lenders. The amended and restated credit agreement provides for a revolving credit commitment of \$125.0 million and matures on October 3, 2015. All borrowings under the amended and restated credit agreement are collateralized by substantially all of our assets. The credit agreement is also guaranteed by the Company. The credit agreement requires us to comply with various financial covenants, including a fixed charge coverage ratio of not less than 1.20 to 1.00 and a leverage ratio of not more than 3.50 to 1.00. The agreement also contains various other covenants, including restrictions on the incurrence of certain indebtedness, liens, investments, acquisitions, and asset sales. We were in compliance with these covenants as of August 3, 2013.

Borrowings under the amended and restated credit agreement bear interest at either LIBOR plus the applicable margin (ranging from 1.05% to 2.05%) or the alternate base rate (as defined in the agreement) plus the applicable margin (ranging from 0.05% to 1.05%). The applicable margin is tied to our leverage ratio. In addition, we are required to pay a quarterly facility fee (as defined in the agreement) ranging from 0.20% to 0.45% of the revolving credit commitment. During the quarter ended August 3, 2013, the interest rate on outstanding borrowings under the Company's \$125.0 million credit agreement was 1.30%. At August 3, 2013, the Company had borrowing availability of \$125.0 million under the agreement.

On June 1, 2012, Vera Bradley Designs Inc., entered into an amendment to the credit agreement. The amendment extends the maturity date from October 3, 2015 to June 1, 2017. Certain permitted indebtedness covenants were also amended.

Off-Balance-Sheet Arrangements

We do not have any off-balance-sheet financing or unconsolidated special-purpose entities.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, as well as the related disclosures of contingent assets and liabilities at the date of the financial statements. A summary of the Company's significant accounting policies is included in Note 2 to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended February 2, 2013.

Certain of the Company's accounting policies and estimates are considered critical, as these policies and estimates are the most important to the depiction of the Company's consolidated financial statements and require significant, difficult, or complex judgments, often about the effect of matters that are inherently uncertain. Such policies are summarized in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the fiscal year ended February 2, 2013. There was no significant change to any of the critical accounting policies and estimates described in the Annual Report.

Recently Issued Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income* ("ASU 2013-02"). This guidance adds new disclosure requirements for items reclassified out of accumulated other comprehensive income. The additional disclosures include: (1) changes in accumulated other comprehensive income balances by component and (2) significant items reclassified out of accumulated other comprehensive income. The changes in accumulated other comprehensive income balance by component will be disaggregated to separately present reclassification adjustments and current-period other comprehensive income. Significant items reclassified out of accumulated other comprehensive income by component are required to be presented either on the face of the

[Table of Contents](#)

statement of income or as separate disclosure in the notes to the financial statements. These additional disclosures may be presented before-tax or net-of tax as long as the income tax benefit or expense attributed to each component of other comprehensive income and reclassification adjustments is presented in the financial statement or in the notes to the financial statements. The guidance is effective for interim and annual periods beginning after December 15, 2012 and should be applied prospectively. The adoption of this standard did not have an impact on the Company's consolidated financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will be effective for fiscal periods beginning after December 15, 2012. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of August 3, 2013, there was no material change in the market risks described in “Quantitative and Qualitative Disclosures About Market Risks” in the Company’s Annual Report on Form 10-K for the fiscal year ended February 2, 2013.

ITEM 4. CONTROLS AND PROCEDURES

At the end of the period covered by this Quarterly Report on Form 10-Q, the Company carried out an evaluation, under the supervision and with the participation of the Company’s Disclosure Committee and management, including the Chief Executive Officer and the Controller, Chief Accounting Officer, and Interim Chief Financial Officer of the effectiveness of the design and operation of the Company’s disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934. Based on that evaluation, the Chief Executive Officer and Controller, Chief Accounting Officer, and Interim Chief Financial Officer concluded that the Company’s disclosure controls and procedures were effective as of August 3, 2013.

There has been no change in our internal control over financial reporting during the most recent fiscal quarter that has materially affected, or that is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1A. RISK FACTORS

There has been no material change to our risk factors as previously set forth in the Company's Annual Report on Form 10-K for the fiscal year ended February 2, 2013.

**CERTIFICATION PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002**

I, Michael C. Ray, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Vera Bradley, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
